

# TERM 4 PHYSICAL EDUCATION Years 4-6

## Striking and Fielding Games Unit (Cricket and T-ball)

This term students will further develop their Fundamental Movement Skills of catching, throwing (underarm and overarm) and the two handed strike, using both a cricket bat and T-Ball bat. Sport specific skills of fielding, bowling, batting, base running and running between wickets will also be taught, using modified equipment. Modified games will be played where students will be introduced to the tactical play required in striking and fielding games, including hitting the ball into space, decision making when base running and running between wickets and decision making when in the field.

## Net/Wall Games Unit - (Tennis)

During our unit on tennis students will be taught and will be building on skills already attained using the backhand, forehand, volley and the serve. Hand-eye co-ordination using an implement will be a major focus following on from the Cricket and Tennis units. They will participate in modified games of tennis with an emphasis on the basic game strategies for Net/Wall games, including hitting the ball away from their opponent and court position to

maximise their chances of getting the ball.
